

Subject: Issue Regarding CTO Validation on E-Waste Portal – Request for Assistance

Dear Sir/Madam,

We **M/s Jabil Circuit India Pvt Ltd (Application no: 3406171)** are writing to bring to your kind attention an issue we are currently facing on the E-Waste Registration Portal under Manufacturer Registration.

At the time of our initial credential creation, we had submitted a valid Consent to Operate (CTO) document as part of the registration process. However, the validity of that particular CTO has since expired, and we have now obtained a new and valid CTO from the respective State Pollution Control Board.

While attempting to proceed further with the registration process using the updated CTO, the portal is displaying an error stating that the CTO validation is invalid. We believe this may be due to the system referencing the previously submitted CTO, which is no longer valid. We have joined CPCB meeting to address the same we request you to resolve at the earliest to proceed with the registration.

The screenshot displays the 'E-Waste Management System' portal for 'Jabil Circuit India Pvt Ltd' (Manufacturer ID: 3406171). The 'Manufacturer Registration Form' is open, showing a progress bar on the left with steps: Company Details, Alternate Authorized Person, EEE, Production Details, Accessories, Quantity Of Waste generated, and Disposable Method. The 'Company Details' section is active, showing fields for Manufacturer State (MAHARASHTRA), Manufacturer District (Pune), Geo Coordinates (17.4587904, 78.3712256), and CTO Application Number (0000163928). A red error message 'Invalid CTO Application Number' is displayed below the CTO number field, with a 'Verify CTO' button next to it. The 'Authorized Person Details' section shows fields for Name (Pramod Vaidya), Mobile Number (7875944520), Email ID (Pramod_Vaidya@jabil.com), and PAN Number (*****). The 'Address' section shows fields for Address line 1 and Address line 2. The portal header includes the system name and the user's name and ID. The footer shows the date and time (13-10-2025, 10:47).
